

100 年博士班資格考 (資訊管理理論與應用)

考試時間 4 小時 closed book

Questions: 題目分成 A、B 二部份，作答時，請注意各題之比例配分並標示題號

Part A : (40%)

1. Describe “**Task-Technology Fit Theory**” and “**Resources-Based Theory**”; discuss their implications on the impact of information systems on organizations.

Part B : (60%)

“Information Systems Theorizing Based on Evolutionary Psychology: An Interdisciplinary Review and Theory Integration Framework”

Given the Dr. Kock’s suggestions for information systems theorizing in terms of evolutionary psychology, please identify, exclude Kock efforts, ***one evolutionary and one non-evolutionary theory*** in the MIS field, representative, as well as your own arguments. The theories should be satisfied the following four preconditions.

1. The theories should refer to the same general type of task.
2. The theories should refer to the same general type of technology.
3. The theories should comprise at least one similar theoretical construct.
4. The theories should complement each other.
