

107 Semester Under Graduate Four-year Program

Curriculum flow chart (Lecture Hours-Labs Hours-Credits)							
1st year		2nd year		3rd year		4th year	
1st semester	2nd semester	1st semester	2nd semester	1st semester	2nd semester	1st semester	2nd semester
Common Compulsory Courses							
Physical Education 2-0-0	Physical Education 2-0-0	Physical Education 2-0-0	Physical Education 2-0-0		Practical Chinese 2-0-2		
Literature and Innovation 2-0-2	Literature and Innovation 2-0-2		Philosophical Thinking 2-0-2				
General Course 2-0-2	General Course 2-0-2	General Course 2-0-2	General Course 2-0-2	General Course 2-0-2	General Course 2-0-2	General Course 2-0-2	
Practicum in English Communication (I) 0-2-1	Practicum in English Communication (II) 0-2-1	English Presentation and Writing (I) 2-0-2	English Presentation and Writing (II) 2-0-2	Career English 2-0-2			
Service Learning 0-2-0	Service Learning 0-2-0						
6-4-5	6-4-5	6-0-4	8-0-6	6-0-6	4-0-4	2-0-2	
College Common Compulsory Courses (14 credits)							
Accounting(I) 3-0-3	Economics (I) 3-0-3	Statistics (I) 3-0-3				Business Ethics 2-0-2	
Management Theory 3-0-3							
6-0-6	3-0-3	3-0-3				2-0-2	
Dept Compulsory Courses(51 credits)							
Introduction to Computer Science 3-0-3	Program Design 2-2-3	Object Oriented Programming Languages 3-0-3	Statistics (II) 3-0-3	Database Management Systems 3-0-3	Information Management Projects(I) 3-0-3	Information Management Projects (II) 3-0-3	
Programming Concept and Methods 2-2-3	Introduction to Information Management 3-0-3	Data Structures 3-0-3	Systems Analysis and Design 3-0-3	Operating Systems 3-0-3	Project Management 3-0-3	Management Information Systems 3-0-3	
Calculus (I) 3-0-3			Information Networks 3-0-3	Object-Oriented Software Engineering 3-0-3			
8-2-9	5-2-6	6-0-6	9-0-9	9-0-9	6-0-6	6-0-6	
Optional Courses(at least 41 credits)							
Total: the minimum credits: 136credits

PhD Program, Information Management

Curriculum flow chart (Lecture Hours-Labs Hours-Credits)

1st year		2nd year	
1st semester	2nd semester	1st semester	2nd semester
Common Compulsory Courses			
Research Methods in Information Management 3-0-3	Advanced Topics in Information Management (II) 0-2-1	Seminar (I) 2-0-2	Seminar (II) 2-0-2
Research Methods in Computer Science 3-0-3		Doctoral Dissertation 3-0-3	Doctoral Dissertation 3-0-3
Advanced Topics in Information Management (I) 0-2-1			
6-2-7	0-2-1	5-0-5	5-0-5
I.M. Professional Compulsory Courses			
Professional Optional Courses			
Project Management 3-0-3	Topic on software quality and risk management 3-0-3	Knowledge Management 3-0-3	Professional Ethics and Law 3-0-3
Advanced Topics in Information Management 3-0-3	System Planning and Management 3-0-3		Quantitative Methods for Management 3-0-3
E-Business 3-0-3	Qualitative Research Methodology 3-0-3		
Seminar on Global Logistics Management 3-0-3	Seminar on Investment Information Management 3-0-3		
	Customer Relationship Management 3-0-3		
I.T. Professional Compulsory Courses			
Professional Optional Courses			
Software Development methodology 3-0-3	Advanced Data Structure and Algorithm 3-0-3		Intelligent computation Study and Analysis 3-0-3
Data Mining 3-0-3	Teaching and Learning of Programming Language 3-0-3		
	Seminar on Business Intelligence 3-0-3		
	Seminar on Medical Informatics 3-0-3		
	Special Topics on E-learning 3-0-3		
	Interaction Design and Thinking 3-0-3		
	Machine Learning 3-0-3		
Total: the minimum credits: 36credits (Including thesis 6 credits)

Graduate School, Information Management

Curriculum flow chart (Lecture Hours-Labs Hours-Credits)

1st year		2nd year	
1st semester	2nd semester	1st semester	2nd semester
Compulsory Courses (20 credits in total) :			
Research Method 3-0-3	Foundation of Computer Science3-0-3	Master Thesis 3-0-3	Master Thesis 3-0-3
Topics of Information Management (I) 0-2-1	Topics of Information Management (II) 0-2-1		
Management Theory and Practice3-0-3	Management Information Systems3-0-3		
6-2-7	6-2-7	3-0-3	3-0-3
Optional Courses (At Least 15 credits) :			
Planning & Management Type :			
Strategic Use of Information Systems 3-0-3	System Planning and Management 3-0-3		
Seminar on Global Logistics Management 3-0-3	Customer Relationship Management 3-0-3	Knowledge Management 3-0-3	
Project Management 3-0-3	Information Service Management3-0-3		
	Summer Advanced Internship Industry0-6-3		
System Develop Type :			
Component-based Software Development Technique 3-0-3	Big Data Processing 3-0-3	Network and System Securities 3-0-3	
Data Management and Applications 3-0-3	Interaction Design and Thinking 3-0-3		Intelligent Computation Study and Analysis3-0-3
World Wide Web System 3-0-3	Advanced Data Structures and Algorithm3-0-3		
Document Engineering 3-0-3	Teaching and Learning of Programming Languages 3-0-3		
Data Mining 3-0-3	Seminar on Business Intelligence3-0-3		
	Network Defense Techniques And Applications3-0-3		
	Machine Learning3-0-3		
Information System Application Type :			
Neural Network in Business Application 3-0-3	Seminar (II) 3-0-3		Seminar on E-Commerce 3-0-3
Seminar (I) 3-0-3	Special Topics on E-learning 3-0-3		
E-Business 3-0-3	Investment Information Management3-0-3		
	Seminar on Medical Informatics 3-0-3		
	Advanced Information Technology and Business Innovation3-0-3		
Qualitative Method Type :			
Data Analysis 3-0-3	Decision Analysis 3-0-3	Soft Computing and Its Application 3-0-3	Professional Ethics and Law 3-0-3
	Qualitative Research Methodology 3-0-3		Quantitative Methods for Management 3-0-3
Total: the minimum credits: 35credits (Including thesis 6 credits)			

Executive Master of Business Administration's Program

Curriculum flow chart (Lecture Hours-Labs Hours-Credits)

1st year		2nd year	
1st semester	2nd semester	1st semester	2nd semester
Common Professional Compulsory Courses(計 21Credits)			
Research Method 3-0-3	Data Management and Applications 3-0-3	Network Technology and Management 3-0-3	Master Thesis 3-0-3
Introduction to Service Science 3-0-3	Project Management 3-0-3	Master Thesis 3-0-3	
6-0-6	6-0-6	6-0-6	3-0-3
Common Professional Optional Courses			
Interaction Design and Thinking 3-0-3	Neural Network 3-0-3	Qualitative analysis methods and applications 3-0-3	
Management Information Systems 3-0-3		Knowledge Management Theory and Application 3-0-3	
Application of Statistic Method 3-0-3		Data Mining 3-0-3	
		Professional Ethics 3-0-3	
Professional Optional Courses			
Strategic Use of Information Systems 3-0-3	Investment Information Management 3-0-3	Global Logistics Management 3-0-3	Customer Relationship Management 3-0-3
Programming and System Development 3-0-3	Information Resources Management 3-0-3	Application of information technology service management 3-0-3	Network and System Securities 3-0-3
Seminar on Business Intelligence 3-0-3	Web Development and Applications 3-0-3	Service information management and decision support 3-0-3	Big Data Processing 3-0-3
The Special Topics For Industrial Service Management(I) 3-0-3	Topics in Electronic Commerce 3-0-3		
	The Special Topics For Industrial Service Management(II) 3-0-3		
Professional Optional Courses			
Digital Content Management 3-0-3	Theories of E-learning 3-0-3	E-Learning Design and Applications 3-0-3	Digital Testing and Assessment 3-0-3
	Digital Evidence and Computer Forensics 3-0-3		
其他類 Optional Courses			
36 Credits
